Value Creation

SECTION 4: Business Portfolio

## SECTION 5: Corporate Data

#### Financial Data

Non-Financial Data

State of Major Green Business Initiatives

Major Progress in Greening All Business Domains

Net Profit of Major Group Companies

Outstanding Balance of Country Exposure

Organization

IR Activities / External Evaluation

Company Profile / Stock Information

<sup>\*2.</sup> Operating profit = Gross trading profit + SGA expenses + Provision for doubtful accounts. "Operating profit" is presented in accordance with Japanese accounting practices for investors' convenience and is not required by IFRS.

<sup>\*3.</sup> Adjusted net profit: Net profit excluding one-time items, shown in an approximate figure.

<sup>\*4.</sup> Core operating cash flow: Operating cash flow excluding net increase/decrease in working capital and others

<sup>\*5. &</sup>quot;Basic earnings" is based on "Profit for the year attributable to owners of the parent" excluding the amount not attributable to ordinary shareholders.

<sup>\*6.</sup> Effective from FYE 3/2023, the denominator in the formula for calculating the net DE ratio has been changed from "total equity" to "Shareholders' equity." The net DE ratio for past years has been adjusted accordingly.

<sup>\*7.</sup> Total shareholder return for fiscal year N = (Share price at the end of fiscal year N + cumulative amount of dividends per share of up to fiscal year N from four fiscal years prior to FYE 3/2024)/share price at the end of the five fiscal years prior to FYE 3/2024 (fiscal year N = any fiscal year between FYE 3/2020 - FYE 3/2024)

<sup>\*8.</sup> Due to the early application of IAS 12, figures for FYE 3/2021 have been adjusted retroactively.

# State of Major Green Business Initiatives\*

### Horizon 1 & 2

(Expanding Green Business based on the current business base, which is already strong and profitable)

### Renewable energy

Steady progress in expanding the renewable energy IPP business and related power retail business, along with expansion of new business development.

- Increasing capacity, mainly from renewable energy and trading capability for Renewable Energy Certificates at SmartestEnergy Limited (U.K.)
- Expanding renewable energy power supply and renewable energy aggregation business at Marubeni Power Retail Corporation (Japan)
- Signed Memorandum of Understanding (MoU) for cooperation in clean energy projects with the U.K. Government
- Commencement of operation of Godo Biomass Power Plant (Godo Town, Anpachi-gun, Gifu Prefecture) and Aichi Gamagori Biomass Power Plant (Gamagori City, Aichi Prefecture) (Japan)
- Development of a wood-fueled biomass power plant in Ishikari City, Hokkaido (Japan)

#### Water infrastructure

Strengthening, promoting water BOT/BOO projects in the Middle East and South America, water and wastewater concession businesses in Europe, South America, and Southeast Asia, and water pipe replacement optimization services in Japan.

- Construction of seawater desalination and water transmission project for the national copper company in Chile, Corporación Nacional del Cobre de Chile (Codelco)
- Implementation of pipe replacement prioritization services using AI, machine learning in Sendai City (Miyagi Prefecture), Ashikaga City (Tochigi Prefecture), and Myoko City (Niigata Prefecture) (Japan)

### Horizon 3

(Creating new Green Business through cross-sectional approaches and utilization of business connections)

### New energy

Strengthening efforts centered on the newly established New Energy Business Development Department, which manages hydrogen, ammonia, SAF, synthetic fuels, etc. Steadily promoting hydrogen and ammonia production projects, and advancing initiatives in the fields of SAF and synthetic fuels.

- Commenced Front-End Engineering Design (FEED) for the Central Queensland Hydrogen Project (CQ-H2) (Australia)
- Commenced Preliminary Front-End Engineering Design (Pre-FEED) with Pembina Pipeline Corporation to co-develop a low-carbon ammonia supply chain (Canada)
- The world's first use of Japanese-produced biofuel, utilizing green methanol and biomass-based waste liquid, in a fully-pressurized LPG carrier
- Signed agreement with Hydrogen Oman SPC (Hydrom) on studies for a green ammonia project (Oman)
- Commenced Pre-FEED for an e-methane production and supply project (Peru)

#### Decarbonization solutions

- Promoting carbon negativity through business alliance with PROS Co., Ltd. for the manufacture and sale of rice husk biochar
- Promoting sales of low-carbon emission methanol
- Established supply chain for biomass Purified Terephthalic Acid (PTA) with Idemitsu Kosan Co., Ltd. and Oriental Petrochemical Taiwan Co., Ltd. (OPTC)
- Participating in carbon dioxide capture and storage projects in Alberta (Canada)
- Launched a proof of concept (PoC) project for EV car-sharing in Gunma Prefecture (Japan)
- Realization of eVTOL operating services in Kansai Area, post Expo 2025 Osaka, Kansai, Japan
- Established joint venture EVolity Corporation with Panasonic Holdings Corporation and launched commercial EV fleet management services
- Construction of a waste-to-energy project in Abu Dhabi (UAE)

Company Profile / Stock Information

<sup>\*</sup> Excerpts of major initiatives disclosed during the fiscal year ended March 2024

### Horizon 1 & 2

(Expanding Green Business based on the current business base, which is already strong and profitable)

### Copper, aluminum\*1

Enhancing, expanding businesses aimed at responsible production and the sustainable supply of copper and aluminum, and promoting resilience in the supply chain

- Decided on investment and arranged project financing for the expansion of the Centinela copper mine (Chile), additional acquisition of interests in the Los Pelambres copper mine (Chile)
- Acquired interests in Pan Pacific Copper Co., Ltd., a supplier of non-ferrous materials
- Initiatives for joint exploration project for non-ferrous metals with Hudbay Minerals Inc. in Manitoba (Canada)
- Obtained Aluminium Stewardship Initiative (ASI) Performance Standard and ASI Chain of Custody Standard certifications at the Portland Aluminum smelter, recognizing operational integrity and environmentally and safety conscious initiatives (Australia)

### Forestry

Promoting green businesses through activities to create forest value (maximizing the economic and environmental value of the MUSI pulp business, creating carbon credits through environmentally conscious afforestation, etc.)

- Exploring forest restoration projects in the Philippines, Angola, and Malaysia
- Carbon offset projects in forests in Noshiro City and Daisen City (Akita Prefecture), and Tanabe City (Wakayama Prefecture), utilizing the J-Credit Scheme (Japan)
- Promoting registration and certification of forest-based J-Credits using a 3D forest measurement system
- Signed MoU with Nordic Bioproducts Group Oy for advanced utilization of wood-based biomass

## Aari-inputs\*2

- Developing, expanding high-value-added proprietary products and services to meet the diverse needs of the agricultural sector, contributing to the improvement of agricultural productivity through enhanced competitive advantage, and considering the reduction of environmental impact
- Pursuing further growth through continuous expansion of locations and market share

### Horizon 3

(Creating new Green Business through cross-sectional approaches and utilization of business connections)

### Decentralized power, battery storage, and supply-demand adjustments

- Expanding decentralized power generation business in Mexico, Vietnam, and Thailand
- Signed long-term corporate power purchase agreements with Cenomi Centers for a rooftop solar PV system (Saudi Arabia)
- Contributed additional funding to OÜ Skeleton Technologies Group, which holds next-generation energy storage technology (Estonia)
- Signed MoU with VinFast Trading and Production Joint Stock Company for the secondary use of EV batteries and establishing a circular economy model (Vietnam)
- Involvement in a grid battery storage project in Kitahiroshima City, Hokkaido (Japan)
- Commenced a PoC project for EV allocation and charging management demonstration at the Matsumoto Regional Development Bureau in Nagano Prefecture (Japan)
- Signed cooperation agreement with Ayala Group for joint development of a battery storage project (Australia)
- Promoting battery recycling business through investment in Cirba Solutions, LLC in North America

## Recycling of materials and resources

- Expanding aircraft aftermarket business through acquisition of interests in Diversified Aero Services, LLC (U.S.)
- Launch of reuse and recycling services for used solar panels
- Investing in production of next-generation recovered Carbon Black (rCB) business for development of end-of-life tire recycling business
- First utilization of recycled cotton and polyester materials of U.S. company Circ, Inc. in Japanese branded products

## **Eco-friendly food products**

- Promoting initiatives related to land-based closed recirculating aquaculture system for salmon farming
- Developing aquacultural feed using insect protein and other environmentally friendly feed at Marubeni Nisshin Feed Co., Ltd.
- Utilizing J-Credits for GHG emission reductions achieved through the conversion of the management system for livestock excreta
- Collaborating with Japan Airlines Corporation in a direct-to-consumer business

## MARUBENI CORPORATION INTEGRATED REPORT 2024 107

Values of the Marubeni Group

Message from the President & CEO

SECTION 1: Value Creation at Marubeni

**SECTION 2: Realizing Value Creation** 

**SECTION 3:** Initiatives for More Sustainable Value Creation

**SECTION 4:** Business Portfolio

### **SECTION 5: Corporate Data**

Financial Data

Non-Financial Data

State of Major Green Business Initiatives

Major Progress in Greening All **Business Domains** 

Net Profit of Major Group Companies

Outstanding Balance of Country Exposure

Organization

IR Activities / External Evaluation

Company Profile / Stock Information

<sup>\*1.</sup> Contributing to decarbonization by supplying critical minerals used for EVs and other clean technologies

<sup>\*2.</sup> Contributing to climate change measures and conservation of biodiversity by supporting efficient land use in agriculture and reducing environmental impact

### **Decarbonization**

## Advancing initiatives to achieve the Marubeni Long-Term Vision on Climate Change

1 Achieve net-zero GHG emissions by 2050

Action Plans towards 2030

P.63 The Marubeni Long-Term Vision on Climate Change

Contribute to low-carbon/decarbonization through our businesses

Energy supply : Alternative energy, power generation by renewable energy sources,

transition energy

Energy demand: Promote electrification (including EVs) and energy-saving, efficiency

improvements, carbon dioxide capture, utilization and storage (CCUS),

battery storage, modal shift

: Support more efficient fertilizer use, manage forests sustainably Land use

## Transition to a Circular Economy

## Advancing greening in all five processes\*1 that promote the effective use of resources

 Share : Fleet management, infrastructure improvement

2 Maintain/Prolong : Strengthen maintenance-related business

Reuse/Redistribute : Aircraft, aircraft engines, automobiles, construction

materials, smartphones, solar panels

4 Refurbish/Remanufacture: Energy conservation and reduction of environmental

impact in refurbish/remanufacture-related business

6 Recycle : Plastics, textiles, end-of-life tires, storage batteries

## Living in Harmony with Nature

## Advancing greening in all six business areas\*2 toward "nature positive" outcomes

\* Descriptions in parentheses indicate some specific initiatives

1 Improving agricultural productivity while avoiding soil degradation and water pollution:

Efficiency in agricultural production and livestock industry (feed additives); biodiversity-conscious agricultural production (soil improvement); enhancing stable livelihoods and sustainability in developing countries (sustainable coffee); reducing food loss (food functional ingredients); circular economy model in food distribution (reuse of residues, livestock manure)

2 Sustainable and multi-purpose use of forest resources:

Sustainable forest management, conservation (forest management); multi-purpose use of forest-derived products (procurement policies for individual commodities)

### Sustainable use of marine and coastal areas:

Sustainable exploitation of natural fish resources (environmentally conscious aquaculture feed); pollution prevention (deplasticization)

Sustainable use of fresh water:

Seawater utilization in copper mining operations (zero groundwater withdrawal); water use efficiency (reduction, recycling of water usage); water quality improvement, pollution prevention (certified products with controlled emissions of hazardous chemicals)

5 Enhancement of sustainability of cities:

Sustainable urban planning (air mobility business); reducing urban environmental impact (next-generation industrial parks); improving quality of life (healthcare and medical services)

6 Sustainable energy use and infrastructure development:

(Refer to above "Decarbonization")

Net Profit of Major Group Companies

Outstanding Balance of Country Exposure

Organization

IR Activities / External Evaluation

### Company Profile / Stock Information

<sup>\*3.</sup> The shareholding ratios are calculated after deducting the treasury stock from the number of shares issued and outstanding. The percentages are rounded to the nearest two decimal points.

# Publication of the Integrated Report 2024

Marubeni's integrated report serves as an important medium to foster constructive dialogue with stakeholders and achieve sustainable value co-creation. In editing this report, we have focused on deeply and clearly illustrating the value creation pathway of the Marubeni Group.

The Marubeni Group is committed to enhancing medium- to long-term corporate value, centered on sustaining and improving cash generation, sustaining and improving ROE, and reducing the cost of equity. While this year's report is structured around these core objectives, it also seeks to further understanding of our unique initiatives and approaches to sustaining the Marubeni Group's uniqueness and growth. With this in mind, we highlighted strengthening of existing business domains, Marubeni Group's competitive advantage, and Horizon 1, 2 & 3 to ensure steady growth, along with a focus on our unique Business Policies SPP (Strategy x Prime x Platform). By providing detailed explanations of these initiatives with specific examples, we aim to convey the Marubeni Group's growth strategy more clearly.

Additionally, this report discusses measures to create value and sustain growth for the Marubeni Group, such as the training and deployment of diverse human capital and the advancement of our Green Strategy, as a part of efforts to enhance human capital management and improve non-financial value, the foundation for the creation of long-term corporate value. The report was composed while referring to the IFRS Foundation's International Integrated Reporting Framework and the Ministry of Economy, Trade, and Industry's Guidance for Collaborative Value Creation.

We hope that through this report, our readers gain a deeper understanding of the Marubeni Group's challenges and evolution to pursue strategies through strengthening existing businesses and making growth investments, as it advances to the next stage of profit.

# Closing Remarks from Marubeni's IR & SR Department

The kind of information that companies are expected to disclose has expanded beyond financial performance to include governance, diversity, and environmental activities. As the information disclosure hurdles that companies must surmount rise each year, the importance of two-way communication between investors and companies has become increasingly significant.

Against this backdrop, Marubeni established the IR & SR Department in April 2024, separating it from the Finance Department IR Section, and expanding the team from seven to 12 members (as of August 2024, including concurrent roles).

The integrated report is positioned as a vitally important communication tool for sharing Marubeni's diverse range of activities and growth stories with external stakeholders. For the 2024 Integrated Report, we have revised the structure under a new team and incorporated various elements to more accurately convey our corporate value.

We hope this report will deepen your understanding of Marubeni's continued journey on the path of value creation
